GreenPro Tuff Mat

Heavy-duty, UV-stabilized Tuff Mats for safe, anti-slip aisles and work areas—drainage grid protects ground covers and improves hygiene. Available from STIPL Agritech (GreenPro).

Heavy-duty anti-slip mats for aisles, work zones & processing areas

UV-stabilized, high-strength mats that add grip, cushioning and drainage to greenhouse floors, pack houses and walkways—protecting ground covers and enhancing safety.

GreenPro Tuff Mat is a heavy-duty, UV-stabilized floor mat designed for high-traffic agricultural and industrial areas. Its textured, anti-slip surface improves worker safety while the open/drainage profile keeps floors drier and cleaner—ideal over *ground cover/weed mats* to prevent wear and puncture.

- **Material:** HDPE/PP based rugged mat with UV stabilization
- **Profile:** Textured anti-slip top; open grid for fast drainage
- **Thickness:** ~8–15 mm (model-dependent)
- **Sizes:** Standard rolls/panels; custom lengths on request
- **Color:** Black or Green (others on request)

Applications

- Greenhouse aisles and nursery walkways
- Packing/processing areas and cold rooms
- Work zones around hydroponic systems and reservoirs
- Livestock sheds, utility corridors, equipment bays

Advantages

- Improves traction and reduces slip hazards
- Protects ground covers from abrasion and tearing
- Drains water quickly—cleaner, drier surfaces
- Easy to roll out, clean and reposition

Tip: Lay on leveled surfaces; overlap or butt-join panels; periodically wash to remove soil, algae and fertilizer residues.

Anti-Slip Safety
Textured mats reduce slip hazards in greenhouses.

Improved Drainage
Open-grid design keeps walkways dry and clean.

High Durability
Rugged HDPE mats for long-term farm use.
